## THE ABSORBER

Made of a unique material called PVA (Poly Vinyl Alcohol), **The Absorber®** is vastly superior to a terrycloth towel and leather chamois. A uniform, sponge-like pore structure enhances capillary action, giving **The Absorber®** drying capabilities no other product can match.

While **The Absorber®** is unmatched as the best drying tool for cars and automobiles on the market, but it also can be used to cool your skin after a workout and even drying off your dog after a bath! With proper care, **The Absorber®** lasts for years and can be stored moist and ready to use its handy tube.

## SPRAY NINE

In 1956, the **Spray Nine Corporation** became the first company to package a cleaning solution in a spray bottle. This made cleaning faster and much easier by eliminating the need to mix chemicals with water. Due to **Spray Nine**, an entirely new product category was created – the ready-to-use, spray-on/wipe-off cleaner.
